

It's a pleasure to write this testimonial on behalf of Spectrum Networks, Inc. Over the last six months they have soundly proven themselves to be a true business partner. This is a phrase that usually gets overbaked. However, Spectrum has genuinely come to Mazer's aide by assisting us in a total review and revamping our network infrastructure. From LAN to WAN and phones to the internet, Spectrum services have led us to consolidation, savings, increased capacity, and a stronger more reliable network configuration. Our Digital Support group is extremely pleased with its interactions with Spectrum and the progress made to date.

Troy McCracken and his team have demonstrated a professional commitment that says they want to be around with Mazer for a long time. Give them a try and see for yourself.

Sincerely,

Ken Fultz
Vice President & GM
